Subject Index

actinides
photoelectron spectrometry of the actinides from Ac to Es 215
adsorbate core-electron binding energy shifts
adsorbate core-electron binding energy shifts in the Born–Haber cycle formalism 271
angle resolved electron spectrometry
resonant Auger processes for molecules as studied with angle resolved electron spectrometry 227
Auger parameter
the Auger parameter, its utility and advantages: A review 283

Born–Haber cycle formalism
adsorbate core-electron binding energy shifts in the Born–Haber cycle formalism 271

continuum shake-off
electron shake-up and correlation satellites and continuum shake-off distributions in X-ray photoelectron spectra of the rare gas atoms 327
correlation satellites
electron shake-up and correlation satellites and continuum shake-off distributions in X-ray photoelectron spectra of the rare gas atoms 327

d orbitals
very strong correlation effects in Auger spectra through the collapse of *d* orbitals: the 2*p* Auger spectrum of free Ca atoms 105

electron shake-up
electron shake-up and correlation satellites and continuum shake-off distributions in X-ray photoelectron spectra of the rare gas atoms 327
electronic structure
orientation and electronic structure of pyrazine adsorbed on Ag(111) 245

ESCA
an ESCA investigation of low energy electron beam interactions with polymers. II. PVFD and a mechanistic comparison between PTFE and PVDF 93
ESCA
ESCA investigation of the initial oxidation of polar GaAs surfaces 39
ESCA
relative intensities in ESCA and quantitative depth profiling 1

fluorination effects
fluorination effects on the inner-shell spectra of unsaturated molecules 53
free Ca atoms
very strong correlation effects in Auger spectra through the collapse of *d* orbitals: The 2*p* Auger spectrum of free Ca atoms 105

gas-phase angle-resolved photoelectron spectroscopy
an initial study of the gas-phase angle-resolved photoelectron spectroscopy of some organometallic compounds 315
gas-phase molecules
high resolution photoelectron spectra of gas-phase molecules using synchrotron radiation 187

high resolution angle resolved photoelectron spectrum
high resolution angle resolved photoelectron spectrum of CO excited with polarized resonance radiation 147
high resolution photoelectron spectra
high resolution photoelectron spectra of gas-phase molecules using synchrotron radiation 187

high resolution UV photoelectron spectroscopy
high resolution UV photoelectron spectroscopy of CO_2^+, COS^+ and CS_2^+ using supersonic molecular beams 167

local electronic structure
local electronic structure in simple alcohols studied in X-ray emission 131

nitrous oxide
investigations on the photoionization of the core levels of nitrous oxide 257

organometallic compounds
an initial study of the gas-phase angle-resolved photoelectron spectroscopy of some organometallic compounds 315
orientation
orientation and electronic structure of pyrazine adsorbed on Ag(111) 245

photoelectron spectrometry
photoelectron spectrometry of the actinides from Ac to Es 215
polar GaAs surfaces
ESCA investigation of the initial oxidation of polar GaAs surfaces 39
PTFE
an ESCA investigation of low energy electron beam interactions with polymers. II. PVDF and a mechanistic comparison between PTFE and PVDF 93
PVDF
an ESCA investigation of low energy electron beam interactions with polymers. II. PVDF and a mechanistic comparison between PTFE and PVDF 93
pyrazine
orientation and electronic structure of pyrazine adsorbed on Ag(111) 245
quantitative depth profiling
relative intensities in ESCA and quantitative depth profiling 1

resonant Auger processes
resonant Auger processes for molecules as studied with angle resolved electron spectrometry 227

supersonic molecular beams
high resolution UV photoelectron spectroscopy of CO_2^+, COS^+ and CS_2^+ using supersonic molecular beams 167
surface sensitivity
the quest for universal curves to describe the surface sensitivity of electron spectroscopies 197
synchrotron radiation
high resolution photoelectron spectra of gas-phase molecules using synchrotron radiation 187

tetra-*N*-alkylammonium halides
surface segregation of tetra-*N*-alkylammonium halides in formamide investigated by angle resolved electron spectroscopy 27

unsaturated molecules
fluorination effects on the inner-shell spectra of unsaturated molecules 53

X-ray photoelectron spectra
electron shake-up and correlation satellites and continuum shake-off distributions in X-ray photoelectron spectra of the rare gas atoms 327
